The Vision of be2move

Better Health in the Workplace

In a workplace that is becoming increasingly fast-paced, digital, and sedentary, new solutions are needed - for **health, productivity, and well-being** at work. This is exactly where be2move comes in.

be2move is an **innovative exercise device** that brings movement right to your desk.

The vision behind it:

"Bringing movement to where it's lacking: when sitting."

be2move combines **relaxation, exercise, and preventive care** in a product that is not only practical and functional for everyday use but also aesthetically pleasing.

„The idea came to me when I noticed that my clients were falling back into old patterns. I wanted to create a tool that would support them effortlessly, right in the midst of their daily lives.“

Michael Lenze

Founder of be2move

Effective training. Minimal space. Maximum results.

Developed in collaboration with experts in physical therapy and myoreflex therapy, be2move is based on **scientific principles**. Every exercise is effective, safe, and sustainable.

Targeted and, above all, active muscle length training improves flexibility, relieves tension, and prevents pain - for noticeably **greater mobility and well-being**.

1 machine // 3 positions // 20 exercises

CHEST		ISCHIO		SPAGAT		HIP	
BACK		MULTI		ADDUCTOR		NECK
